

# Intelligence & Security Services

Problem: Solved.

Today's organizations face ever-evolving risks that threaten the safety and security of their people, brands, and profits. The Lowers team provides intelligence and security services designed to root out potential threats, mitigate the risks, and proactively protect what matters.

## Competitive Business Intelligence

Lowers can help you maximize commercial opportunities and minimize business risks by providing:

- Competitor intelligence
- Information on sponsors, partners, agents, customers and vendors
- Intellectual property control
- Pre-transaction intelligence
- Contest for corporate control
- Patent and trademark protection
- Intelligence on grey market and counterfeit goods

## Private Investigations and Surveillance

Discrete private investigations are sometimes necessary in litigation and prior to or after business acquisitions/mergers. It is also necessary to uncover unsavory actions of business partners or unearthing the truth in order to make informed decisions. Observing the subject in their natural, day-to-day environment may also shed light on different actions and behavior. Lowers has an eye for details that matter.

## Asset Tracing and Recovery

In anticipation of civil litigation or dissolution of marriage proceedings, or in instances where the execution of a judgement is necessary, Lowers can assist in locating assets all over the world.

## Cyber Security & Risk Assessments

Lowers is at the forefront of helping clients deal with the realities of life in the age of cyberspace and computer piracy. We utilize an "end-to-end" approach to Cyber Risk, including financial forensics, risk mitigation, and preventative solutions.

## Workplace Security

Workplaces are also well-advised to adequately equip their environments with an appropriate level of physical security measures. The nature and scope of those measures will vary depending on the size, volume of daily traffic, and nature of the business.

### Workplace physical security may include:

- On-Site Security Personnel
- Identity Verification
- Surveillance Devices
- Artificial Intelligence Solutions
- Detection Tools
- Defenses

## Tiger Kidnap

Tiger kidnapping is an increasingly common and distressing threat facing businesses across the specie industry. It is a risk you cannot afford to ignore. As a leader in international risk mitigation and loss prevention, the Lowers team has the proven experience to help protect your employees, brand, and profits from the dangers of this dramatic crime.

- Assess your risks of tiger kidnap
- Review tiger kidnap policies and procedures
- Validate necessary controls
- Provide attestation of internal controls
- Raise awareness among employees
- Evaluate and implement training
- Maintain your brand reputation

## Active Shooter Training Programs

A comprehensive training plan will encompass everything from learning to identify and report warning signs, to sharing info about available employee support resources, to knowing what to do in an active shooter situation. The Lowers team provides training geared to all levels and stakeholders in the organization, from employees, to volunteers, to customers, to visitors.
